UNIVERSITY

Midterm submission details

- Rubric posted on the course website
  - Click on **Evaluation**

- Four grade components

1. Requirements document

2. Testing document

3. User Manual

4. Implementation

Requirements Document

- Describes **_what_** the system does for its client/customer, not how it does it

- Contains **use cases and user stories** for the system

- No particular format required for this course

YORK U
UNIVERSITÉ
UNIVERSITY

Testing Document

- Describes the test cases that have been implemented

- Includes discussion on how these test cases were derived

- Includes discussion on why these test cases are sufficient

- No particular format required for this course

YORK U
UNIVERSITÉ
UNIVERSITY

User Manual

- Describes how to install the system on the client's site

- Describes major use cases

- Contains screenshots or even links to video

- Must be easy to understand by someone who is unfamiliar with the system

UNIVERSITY

Repository organization

- Your repository must have a well-designed README that explains anything we may need to be able to run your program and find the documents

- All documents must be committed to your github repository both as source (Word, latex, Pages etc) as well as PDF
  - Create a folder called **Documentation**

UNIVERSITY

Submission instructions

- Everything that you want to submit must be on your github repository

- The actual submission will be done on Moodle as online text which will be just the URL of your github repository

- You can do the submission now if you want!

- **Your master branch at the last commit before the deadline is what will be marked**
